

## Olstein All Cap Value Fund Class C Shares (OFALX)

### Calendar Year Returns

Performance data quoted represents past performance and is not indicative of future results. Current performance may be lower or higher than the performance data quoted. The principal value and return may fluctuate with market conditions so that shares, when redeemed may be worth more or less than their original purchase price. All returns are net of expenses and include changes in share price and reinvestment of dividends.

Year	OFALX	Russell 3000® Value Index	Russell 3000® Index

### Investment Performance

#### Olstein All Cap Value Fund

This chart provides calendar year returns for Class C shares of the Olstein All Cap Value Fund. The inception date of Class C shares of the Olstein All Cap Value Fund is September 21, 1995. The returns illustrated do not reflect deduction of the Fund's 1% maximum contingent deferred sales charge ("CDSC") for Class C shares imposed when an investor redeems those shares within one year.

#### The Russell 3000® Value Index

The Russell 3000 Value Index measures the performance of the broad value segment of U.S. equity value universe. It includes those Russell 3000 companies with lower price-to-book ratios and lower forecasted growth values. The Russell 3000 Value Index is constructed to provide a comprehensive, unbiased, and stable barometer of the broad value market. An investor cannot invest directly in an index.

#### The Russell 3000® Index

The Russell 3000 Index is an unmanaged index that seeks to represent the broad U.S. equity universe accounting for approximately 98% of the U.S. market capitalization. Past performance does not guarantee future results. Index returns do not reflect payment of any expenses, fees or sales charges an investor would pay to purchase the securities the index represents. Such costs would lower performance. The graph of the S&P 500 Index is for illustrative purposes only. An investor cannot invest directly in an index.
